

Part 3: Using Collection Figures

Dossiers

What is a Dossier?

Curio includes several bundled list stencils which we call dossiers. These dossiers can be inserted into any idea space via the Insert toolbar button. They include questions or topics for you to consider when beginning a project or assignment.

For example, Curio includes a very popular *Creative Brief* dossier with all the questions you should ask your client before starting a design job. Likewise the *Essay* dossier will help you begin writing a college essay.
