

# FileBox – Free File Host Script

FileBox Is A Free Simple File Hosting Script, And It Is Absolutely Free. With This Script You Can Create Your Own File Hosting Site With Many Features Like:-

- Custom Website Layout (Themes)
- Private File Uploading
- Disable Direct Linking Of Files
- Download Time Delay
- Fully Customised Ads On Website Header And Footer
- And A Simple Admin Area With Advanced Features

## **Requirements :-**

To Install FileBox Clone To Your Server You Have The Following Things Installed In Your Server :-

- PHP 5.1 or Newer
- .ZIP Extension On WebServer
- Subdirectories

## **How To Install :-**

Step 1 – Unzip The Downloaded Script File.

Step 2 – Upload All The Files From The “script” Folder To Your Website Server.

Step 3 – CHMOD All The Text File And “storage” And “storedata” Folder To “777”

Step 4 – The Installation Is Complete, Now Anyone Can Use Your FileHost.

## **How To Access Admin Area :-**

You Can Acces The Admin Area Of Your FileHost To Update Your Website's Information Like Site Name, Download Time Delay, Ads On Download Page, Site Admin E-Mail, And Many More.

To Access The Admin Area You Have To Go To

<http://www.yourwebsite.com/admin.php> Where [www.yourwebsite.com](http://www.yourwebsite.com) Is The URL Of Your Website, When The Page Opens It Will Ask For A Password, The Default Password For FileBox Admin Is “password”. And After Logging In You Can Change Your Password.

### **How To Place Ads On Website :-**

To Place Ads On Your FileHosting Site You Need To Edit Two Files Where You Have To Insert The HTML Code Of The Advert. You Want To Display Across Your Website.

To Insert Ads On The Top Of The Page You Have To Edit “topads.php” File From Your Server, You Have To Insert The HTML Code For The Ad In This PHP File.

To Insert Ads On The Bottom Of The Page You Have To Edit “bottomads.php” File From Your Server, You Have To Insert The HTML Code For The Ad In This PHP File.
