This little program is brought to you by PerLingua Language Tools.

For more ideas and software please visit our website.

**Register**

When you start the program, you will see the "Welcome" window.

After you close the window you will see the "Word List" window.
Here you can import a text file (plain text only, please) or you can drag and drop or copy text and paste it in.
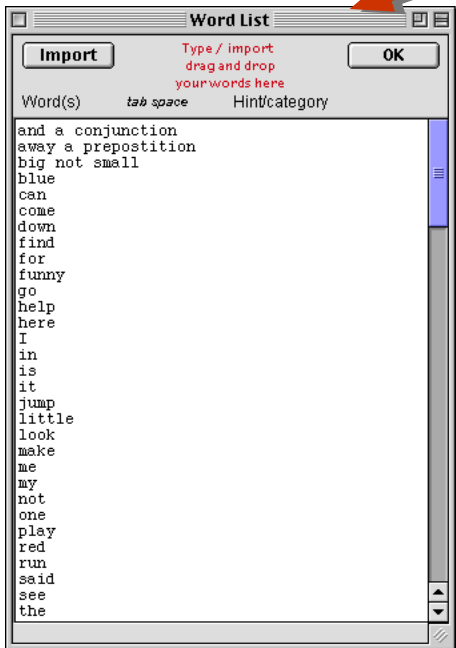

When you're ready, click the "OK" button to begin.

Note: You can add a hint! Type the word then press the 'tab' key and type the hint.

One more note: You can include spaces! This means you can use sentences--just like **Wheel of Fortune**!

Here's a bright idea! Use Hang-Man to review any subject with your students. You give them the hint and they guess the word/phrase!
Example: Woodrow Wilson (tab) Who was the president during the First World War?

After you click the "OK" button, you are ready to play. Students can click on the letter or they may use the keyboard.

Microsoft Windows users-
you will need Quicktime:
www.apple.com/quicktime/download/
You may already have it! Just run the program to find out. If you don't have it, a helpful window will appear with the link.

Price:

I want schools to use this and I know how cost conscious teachers can be (Hey, I'm one, too!) So I've priced this as low as possible. **This is a site license!** Your whole school can use it!
$5 (US Dollars)
Please view my web site or email me for payment options.
Registering entitles you to use the program within your entire school building. It also entitles you to 2 free udates. Finally you are entitled to bug me as much as you wish about features you want included.
