How can I make even more money from this ebook?

You can sell this ebook on eBay and other auction sites just like I do. If you do want to try your hand at selling this ebook, you will find the sales page in the same zip file you found this ebook; or, feel free to write your own sales page. For info on how to sell on eBay, visit:

<http://pages.ebay.co.uk/help/ebayexplained/selling/index.html>

You can sell the ebook in pretty much any category you want; after all, everyone on eBay is an online shopper, and who doesn't want to save money?

If you want to use our ready made sales page, simply copy and paste it into the eBay selling form. You can sell it for any price you want...it's best to try selling it as a buy it now item and an auction item. I find this generates the most sales. And why stop at eBay? You might want to try CQout (there's a link below. It's normally free to list your items here (depending on the terms and conditions), so you're pretty much guaranteed to make profit. Here's the link:
